

Rail-Werx Inc. is a new company based in Alberta with associates in other jurisdictions. Our skilled associates have many years of experience in the railway industry in various roles. We provide a host of railway training and services based on the requirements of your railway operations and the Authority Having Jurisdiction.

- ✗ Safety management systems (SMS) auditing
- ✗ Development of safety management systems (SMS) and General Railway Operating Instructions (GROI)
- ✗ Assist in obtaining railway operating approvals and regulatory exemptions
- ✗ Incident investigations and professional subject matter experts for insurance claims
- ✗ Expert regulatory guidance in interpreting the regulations.

We also provide railway training on-site or at either of our Northern or Southern Alberta campuses for all staff engaged in railway operations:

- ✗ Auditor training
- ✗ Track inspection training
- ✗ Rail Car Mover and Locomotive Operator Training
- ✗ Regulatory training to meet or exceed requirements

Petro-Traxx Inc. has been providing rail loading services and supplying manpower throughout Alberta since 2005. We also offer equipment sales, leasing, Rentals, consulting services and custom rail equipment.

We purchased our first rail car mover in 2008 which lead to the creation of our maintenance division. In early 2019 we became the authorized Western Canadian dealer for Shuttlewagon rail car movers.

Petro-Traxx Services:

- ✗ Rail car mover Sales, Rentals and Leasing
- ✗ Consulting services
- ✗ RCM derailment inspection reports and evaluations
- ✗ Service all makes and models of rail car movers
- ✗ OEM and After-market parts
- ✗ 24 Hour service and technical support
- ✗ Scheduled maintenance as per OEM specifications

Our experience maintenance team is there to keep you moving.

Ultra-Traxx Inc. provides quality ultrasonic testing and inspection services throughout Canada and the United States. We service all areas of rail:

- ✗ Public Rail
- ✗ Short lines
- ✗ Industrial yards

Our highly qualified inspectors and chief operators use the newest technologies in rail testing. We conduct accurate and detailed baseline testing that identifies and monitors rail defects at your facility.

We developed a unique version of a Toolcat with hi-rail, and a full line of on and off rail attachments. Using our innovative blowers and Toolcat design, you will be able to keep your rail clear in all seasons and maintain your facility with ease, thus reducing maintenance time and costs.

Ultra-Traxx strives to be the industry leader in ultrasonic testing and rail inspection services with an integrity for safe operations and superior customer service.

No other manufacturer of Mobile Railcar Movers has done more to develop the category than has Nordco by expanding the range of capability across the Shuttlewagon product line. While another boasts of being first and selling the most, Nordco has brought innovation to the industry unlike no other. At Nordco, our passion to leverage customer input and technology continues to propel us forward through our never-ending journey to foster innovation into real world practical railcar handling solutions. With Shuttlewagon, nothing is off the table.

In production for more than 40 years, Nordco works directly with customers that rely on Shuttlewagon Mobile Railcar Movers every day. At Nordco, innovation is driven by users of our products who demand a safe, efficient and dependable railcar mover. We are proud of what we do and are here to help your operation run more smoothly.
